AUTHOR INDEX

The numbers pertain to paper numbers, not page numbers. This enables the reader to refer directly either to the program or to the abstracts. Symposia speakers are listed, although an abstract may be lacking.

INDEX TO VOLUME 9

This index covers only the major papers, their authors, and principal headings. It does not include the abstracts. For the latter there are separate indices to authors on pages 625 and 1151. If one wishes to locate an abstract, author unknown, or search for a subject, the synopsis of program on pages 541-542 and 1021-1022 will prove useful in locating appropriate sections of the program. Titles and authors, pages 543-564 and 1023-1058, will then lead to the abstract desired. Minutes of business meetings, officers, and reports are entered only under American Society of Zoologists.

Abstracts, see note above.
